School bands played and the St. Augustine students sang during the ceremony.

The Kentucky General Assembly authorized the project in 2008 and approved its funding in 2010. The original projected cost of \$15.6 million was reduced by \$500,000 with the careful

Bush seeks re-election as Judge Executive

I, Earl Bush, am announcing my candidacy for re-election as Judge Executive in 2014. I have been honored to serve the people of Bracken County.

Together we have improved county roads/bridges, upgraded equipment/facilities, enhanced community streets and parks, and worked with local business and industry to keep jobs in the county. These and more and been achieved while lowering the county tax rate and increasing the county budget reserves. Much has been accomplished, but more remains to be done to ensure Bracken County's continued progress.

I ask for your vote and support and the opportunity to continue working for you.

"Hometown Heroes" honored at Bracken Co. Nursing & Rehabs Hall of Fame Cafe

Bracken County Nursing and Rehabilitation Center held their Hall of Fame ceremony honoring our "Hometown Heroes" on Friday, Nov. 1, 2013. Honorees inducted this year were Nora Hargett as a resident, Harold Perkins as a community leader, and Dianna Smith as a Stakeholder.

Nora was born in 1912 and married early. She would ultimately marry three husbands and have four children. She has worked as a cook at Burke's Sundries restaurant, been active in the Democratic Party, made a Kentucky Colonel, is a member of the Brooksville United Methodist Church and was referred to as a gypsy because she was always travelling somewhere with her third husband Gene Hargett. She has outlived her husbands and three of her children, taken motorcycle rides for her 95th and 100th birthdays, and chose to become a resident at BCN&RC in 2011.

Harold was born in 1928 and served in the Marine Corp. for two years. His mother, Ina Perkins, had cared for people

in her home for many years. When code enforcement became stricter in the 1960's, Harold built a wing onto her home thus establishing Bracken Center, now known as Bracken County Nursing & Rehab Center. He and his sister helped to run Bracken Center and built the current building in three phases. He was instrumental in getting

Rural Home Health started in Bracken County and sold Bracken Center in 1995.

Dianna, daughter of Clyde and Juanita Jett, was born in 1957. She attended Brooksville Baptist Church, delivered newspapers, and worked for Jockey International after marrying Rick Smith. After the birth of her only son Bradley, she became

a stay at home mom. She has devoted her life to caring for others including her parents and husband until their deaths. In 1987 she began working for Bracken Center as a nursing assistant and is still there caring for the many patients who make Bracken County Nursing and Rehabilitation Center their homes.

Looking Back Tabitha's Tidbits Compiled by The Bracken County Historical Society

From Brooksville Centennial Celebration 1839-1939 Industries of Bracken Co.

Although Bracken County is essentially an agricultural county, producing large crops of fine tobacco, corn, wheat and other grains, as well as important hay crops, it also boasts of several other industries.

From time to time the county has had small factories which manufactured various articles, but these have passed out of existence. However at present Augusta boasts of two fine, modern factories. The shoe factory produces work for about two hundred persons and at present a new addition is being built which will require the services of about two hundred more persons. It is well equipped with modern machinery and makes a good grade of shoes which are shipped to all parts of the United States. Augusta also has a large buckle factory which has been in existence for a number of years and which also provides work for quite a few people.

The county also has three large lumber companies. The Brooksville Lumber Mill of which Garrett Jett is the proprietor, and the G. W. Monneyhon Co. of Augusta carry a large stock of building material and enjoy the confidence

of a large number of customers. In the western part of the county, at Bradford, Romie Weisbrodt also conducts a fine lumber business and carries a complete stock of building materials. He also enjoys the confidence of a large number of customers.

Bracken County has three large flour mills. The Farmers and Merchants Milling Company in Brooksville has been in operation for forty-six years and makes several grades of flour and mill feed. The present manager is H. W. Coons. The Germantown Milling Company also produces several grades of flour and mill feed and has been in operation for a number of years. The present manager is Stanley Hill. At Cumminsville another flour mill produces flour and mill feed and has been in operation for many years. The present manager of this mill is Mr. Louie Cummins.

The county is also provided with several commercial routes which have proven desirable assets in the development of the county. Augusta, Foster and Bradford are located on the Ohio River and receive and ship freight by water on the river streamers that ply the waters of the Ohio.

Thoughts and Meditations from the Scriptures

GRAVITY, OCCULT FORCES, AND THE MYSTERY OF SPIRIT

The idea that Newton discovered gravity after being struck by a falling apple is doubtful. Newton had a lifelong interest in alchemy, magic, and occult forces, and his theory of gravity may have been inspired by the idea of occult forces, i.e., the idea that objects can have an effect on other objects without touching them. Gravity is essentially action at a distance. The earth doesn't have to touch the moon in order to exert a gravitational pull on it. This may seem obvious to us now, but there is still something deeply mysterious about how objects affect other objects without actually touching them. How does gravity or magnetism work, unless the space between objects is a kind of fluid (or ether) in which they are actually connected? Or, is space itself a kind of fluid rather than an empty vacuum? Minds are equally mysterious. Minds seem to be in contact with other minds, for instance when we sense what someone is going to say or how they feel. Perhaps the universe is, at bottom, more spirit than matter. And perhaps some are more in tune with the cosmic fluid, the spiritual ocean, as it were, in which all of us are swimming, whether we know it or not. – Christopher Simon

“For since the creation of the world God's invisible qualities, His eternal power and divine nature, have been clearly seen, being understood from what has been made, so that people are without excuse.” - Romans 1: 20

BROOKSVILLE ASSEMBLY OF GOD by Janice Whitney

NEW LIFE FELLOWSHIP by Beverly Whittaker

We have a lot to be thankful for. God is so good! The special this morning of November 3rd was by the trio of Angela Tucker, Sheryl Hicks, and Aleisha Renfrow entitled "Down To The River." Pastor Doug's message posed the question "How and why is faith tested?" The text was from James 1:3-4. Faith comes by hearing the word of God.

Christian sympathy is extended to the family of Shawna McKenney. May God give you peace and comfort. There are many in our community that needs prayers. Without God we are nothing.

We invite you to our prayer service Wednesday evenings at 7 p.m. at the church. Our Wednesday evening meal begins at 6 p.m. where we fellowship with one another. This Wed., Nov. 6, the youth will have a special guest, Tony Littrall and his canine friend Josiah. You don't want to miss this! Invite your friends. It begins at 7 p.m. at the church. We invite you to any of our services. Sunday School classes for all ages begin at 9:30 a.m. followed by praise and worship at 10:30 a.m. Remember God loves you and so do we! We are located at the intersection of 875 and the AA Highway on the left. Have a wonderful week!

PRESBYTERIAN POTPOURRI by Les Grooms, pastor Augusta Presbyterian

Our soup supper continues on Monday nights at 4:00 to 6:30 p.m. for all who wish to come. The doors are wide open so come and have Christian fellowship with us. Last week we had about 50 who attended.

This Sunday was communion Sunday. Jean Appelman prepared the elements, Ruby Claypool and Becky Hopkins served the elements, and Susie Hargett sang while the elements were being distributed. Our church rules tell us that it is appropriate to participate in Holy Communion every time that we meet but we must have Communion at least four times a year. We choose to have Holy Communion each month and in addition, Christmas eve. It is a sacred moment.

This past Sunday was pastor appreciation day and we had a wonderful time. There was a pot luck meal and, as always, the food was wonderful. Susie Hargett honored us with a song and we got gifts from the church and the deacons. Appreciation to those of the church who have been so supportive in the last 12 years.

I continued with parable from the book of Luke this past Sunday.

Letters To The Editor

On Tuesday, October 8th and Wednesday, October 9th, my family spent these beautiful days picking up six miles of trash on Highway 1019 and Highway 1011. It is a sad reality to look at the streets of our county and see trash scattered amongst the sides of the road. No one should have to pick up someone else's trash. It should not be there in the first place. Spending a day on the streets picking up trash opposed to spending a day with family and friends, which one sounds better?

People who litter do not realize all the effects it has on you and the rest of the community. For one, it is illegal. Is it worth up to \$300 in fines to throw out garbage opposed to throwing it away for free in your trash can at home? Secondly, it makes the streets of this community ugly and hides the beauty of God's creation. Thirdly, it cost money to litter. Our taxes we pay are used for multiple expenses, one being roadside cleanups. Lastly, litter is dangerous! It can harm plants and degrade natural areas as well as harm animals. Be considerate of

others, the environment and nature!

Luckily, litter can be controlled and these results can be avoided. Simply dispose of your trash in the appropriate place. Literally, it is that easy!

Help keep God's earth clean, green and beautiful by throwing away your trash at home as well as **RECYCLING, REUSING and REDUCING.**

Letters To The Editor

On October 28th, the Bracken County Lady Bears basketball team and parents did their part in collecting litter along the highways in Bracken County. The group picked up trash for 7 miles along highway 1019 from Cooper Lane, across the AA Highway, to #8. In this span of highway, we managed to collect 32 huge bags of garbage.

During our seven mile trek, we removed jugs, mounds of fast food trash, candy wrappers, and discarded boxes from the side of the highway. The bottom line is...there should never be trash around to collect. When driving down the road, if everyone would save

their trash and dispose of it properly, then the children of this community could use their leisure time for other things than picking up someone else's garbage along the roads. In an effort to reduce the amount of litter on the roads of Bracken County, we urge the citizens of this county to act responsibly and to think twice about haphazardly tossing garbage out their car windows. If everyone would think twice, then I'm sure the state of Kentucky could find a better and more productive way to spend the money used for trash pickup each year. Remember, if you're not part of the solution...you might be part of the problem.

Sincerely, BCHS Lady Bears Basketball Team

“Economy Break” Makes Donation

Pictured is the 6th grade class of Bracken County Middle School. At the end of their 5th grade at Taylor Elementary the class participated in “Economy Break” as part of Ms. Routt’s Social Studies class. The program involved buying, selling, and calculating profits. Upon completion of the project, the students’ final assignment was to agree on a charity in their community to donate profits made. The kids agreed on the Bracken County Cancer Support group.

The Bracken County Cancer Support group is very appreciative of this donation. The money received will be given to someone in Bracken County that is fighting cancer to help offset the cost of traveling to receive treatments. We are so fortunate to live in a community that is so supportive – both young and old. The Bracken County Schools are also fortunate to have teachers such as Tricia Routt that not only teaches curriculum, but also instills community needs within the students.

Sensitivity To Light

“Photophobia,” the term used to describe sensitivity to light, can range from being mildly bothered by bright light to being irritated by any light (sunlight or fluorescent or incandescent light). As a result, photosensitive individuals may squint or even close their eyes in response to bright light, and may even experience headaches. Those most likely to suffer from photosensitivity include people with lighter-colored eyes as well as migraine sufferers and those with cataracts. In many cases, photophobia is symptomatic of an underlying problem, such as corneal abrasion, uveitis, or a central nervous system disorder like meningitis. Light sensitivity may also be associated with retinal detachment or contact lens irritations. Effective treatment involves identifying and treating the underlying cause.

Photophobia is a vexing problem for patients and physicians alike. At Kentucky Eye Institute, we strive to remain at the forefront of eye care technology. We do care about your concerns, and welcome your questions. From the moment you arrive at our office, until it’s time to return home, you’ll be cared for by our knowledgeable and courteous staff. Call us at 606.759.7883 or 800.658.7282 to schedule an appointment. We’re located at 1937 Old Main St., Suite 1, Old Washington, where we want to help you improve, preserve, or restore your eyesight. We specialize in “EYE CARE FOR ALL AGES.”

P.S. Certain common medications, such as antihistamines, birth control pills, and antibiotics, can cause photophobia, due largely to the fact that they cause the pupils to dilate or enlarge.

BCMS holds annual Colonial Simulation

Pictured are: Daniel Workman, Savannah Mains, Frankie Collins, Katie Stanton, Austin Stubblefield, and Mackenzie Carpenter.

Bracken County Middle School 8th graders in Mrs. Stephenson’s Social Studies class have just completed their annual colonial simulation. Students earned wealth units which were then used to purchase people and supplies to begin their colonies. Students chose names and designed flags to represent their colonies and loaded their ships. After sailing across the Atlantic Ocean colonies chose land on which to begin their settlements. Each round, members decided how their people would work, if they wanted to trade, or if they wanted to battle the Indians or other colonies. At the end of the simulation they had to pay back the government, private companies, or individuals who had helped them begin their journeys. The colony that accumulated the most wealth units throughout the simulation was determined to be the winner.

USDA Farm Service Agency (FSA) increases Guaranteed Loan Limit

John W. McCauley, State Executive Director for Kentucky's Farm Service Agency (FSA), announced that the loan limit for the Guaranteed Loan Program increased to \$1,355,000 on Oct. 1. The limit is adjusted annually based on the "Prices Paid to Farmers Index", compiled by the National Agricultural Statistics Service (NASS).

"Raising the guaranteed loan limit will allow FSA to better meet the financial needs of producers across the Commonwealth," said McCauley.

FSA guaranteed loans allow lenders to provide agricultural credit to farmers who do not meet the lender's normal underwriting criteria. Farmers and ranchers apply for a guaranteed loan through a commercial lender, and the lender arranges for the guarantee. FSA can guarantee up to 95 percent of the loss of principal and interest on a loan. Guaranteed loans can be used for both farm ownership and operating purposes.

Producers should contact their local FSA Service Center with questions about farm loans or by visiting www.fsa.usda.gov.

USDA Issues Conservation Reserve Program Rental Payments, Direct Payments and ACRE Payments

Agriculture Secretary Tom Vilsack announced that USDA has begun distributing Conservation Reserve Program (CRP) annual rental payments to participants across the country. USDA also will distribute 2013 direct payments and 2012 Average Crop Revenue Election (ACRE) program payments beginning Oct.

24. Payments originally were scheduled to be issued earlier in the month, but were delayed by several weeks due to the lapse in Federal funding.

"Farmers, ranchers and rural landowners across the country count on USDA programs and the payment delays due to the shutdown were an unnecessary burden," Vilsack said. "USDA has prioritized making these scheduled payments without any further delay and Farm Service Agency staff have worked hard to get this assistance out the door as quickly as possible."

Producers will receive payments on almost 700,000 CRP contracts on 390,000 farms covering 26.8 million acres. In exchange for a yearly rental payment provided by USDA on contracts ranging from 10 to 15 years, farmers and ranchers enrolled in CRP agree to remove environmentally sensitive land from agricultural production and plant grasses or trees that will improve water quality and improve waterfowl and wildlife habitat. CRP reduced runoff and leaching of nitrogen and phosphorus into waterways by an estimated 605 million pounds and 121 million pounds, respectively, in 2012, and soil erosion reductions totaling 308 million tons in 2012.

Direct payments for 2013 for the DCP and ACRE programs are being made to the more than 1.7 million farms enrolled in the Farm Service Agency's programs. Producers with base acres of certain commodities are eligible for DCP payments. ACRE payments for 2012-crop barley, corn, grain sorghum, lentils, oats, peanuts, dry peas, soybeans, and wheat are scheduled to be released beginning Oct. 24 and contingent upon national average market prices and yields in each state. Effective Oct. 1, 2013, FSA does not have legislative authority to approve or process applications for these programs.

Streams in Licking River drainage, Eagle Creek and Kentucky River receive stockings of largemouth bass

Excess largemouth bass production at the Minor Clark Fish Hatchery in Morehead will benefit stream anglers in central and north-central Kentucky.

"We had some leftover fish from the largemouth bass stocking initiative," explained David Baker, stream biologist for the Kentucky Department of Fish and Wildlife Resources. "We wanted to do something to try to help some streams. So we stocked roughly 31,000 excess 5-inch advanced fingerling largemouth bass."

The statewide size limit on largemouth bass is 12 inches.

Stoner Creek in Bourbon County, the South Fork of Licking River in Harrison County and the main Licking River in Harrison, Nicholas and Robertson counties all received largemouth bass stockings in early October. Eagle Creek in Scott, Grant and Owen counties also received largemouth bass, in addition to Pool 4 and Pool 9 on the Kentucky River.

Baker and crew stocked 500 largemouth bass each at two locations along Stoner Creek in Bourbon County.

They placed 500 largemouth bass each at four places on the South Fork of Licking River: the Lair Ramp, the Terry Dam Ramp, also known as Airport Road Ramp, the Cynthiana Ramp and the Robinson Dam Ramp. All these locations are in Harrison County.

The main Licking River received 5,000 largemouth bass apiece at the Clay Wildlife Management Area Ramp in Nicholas County, the Blue Licks Battlefield State Resort Park Ramp and the Claysville Ramp in Robertson County.

Kentucky Fish and Wildlife stocked 500 largemouth bass on Eagle Creek at the Sadieville Ramp in Scott County, at the Pettit Pike Ford in Grant County and at the Sparta City Park carry down access in Owen County. Pool 4 of the Kentucky River got 5,500 largemouth bass at the Benson Creek Boat Ramp in Frankfort while Pool 9 received the same amount of largemouth bass at the Boonesborough State Park Boat Ramp.

Baker said the stockings targeted the impounded areas and slower moving sections of these streams and rivers. "Those areas make the best stream largemouth bass habitat," he said. "These stockings should help offset what looks like a poor reproduction year from the wet spring and summer. With hope, these stockings will result better largemouth bass fishing in these areas in the future."

Bracken Co. Cross Country Boys Team Claims Regional Runner-Up Title and Punches Ticket to State Meet; Ashley Anderson Qualifies for State Meet as an Individual

History was made at the High School Boys Cross Country Regional Championship this past Saturday in Winchester, KY. The Bracken County Polar Bears stepped to the starting line against a super competitive field of 10 teams representing Class A Region 5. If the rankings were to be trusted the Polar Bears could look to achieve was third or potentially fall all the way to fifth. The great thing about racing is that it's not a math test and rankings mean nothing to the heart and spirit of a group of guys that have dedicated the last five months of their lives to achieving something special.

The team stepped into their starting box looking both nervous and focused, knowing that pure agony was about to set in and was not going to relent until all 3.1 miles of the hilly terrain of Lykins Park was conquered.

As the first lap unfolded Steven Cummins established himself as the leader of the team, a place all too familiar for the 4 year letterman. Cummins was followed by Jacob Hamilton, Tyler Crawford, Nick Ware, Matthew Hunley, Troy Dunagin, and Arthur Wallace. At the halfway point the team looked to be in 2nd place overall but some of the Polar Bears were starting to struggle.

Just past the 2.5 mile mark the placement was

Pictured left to right are Will Jones, Troy Dunagin, Matthew Hunley, Jacob Boden, Arthur Wallace, Griffin Walton, Nick Ware, Steven Cummins, Jacob Hamilton, Tyler Crawford, and Coach Forrest Hunt.

unsure. Cummins dropped a couple of spots, while Hamilton and Crawford maintained from lap 1. Ware started to lose ground but Matthew Hunley came on like a charging bull blowing past runners one after another. Dunagin and Wallace continued to battle, attempting to fend off late surging runners from other teams that could ruin any hopes of a 2nd place finish.

Coming across the final bridge and kicking towards the finish line one can't help be motivated and inspired to see a look of determination and resolve that comes from pouring out all that you have. It is done for yourself, but far more importantly, for

something bigger and greater than you...the team. You see runners from other schools let up at the end, not understanding that their goals and desires don't supersede that of the team. This is not the case for Bracken County.

As the last runner crossed the line and the points were being tallied, the realization of what started 4 years ago by a school system that took a chance on an unknown and untried coach, finished with a Regional Runner-up trophy and the pride of making a return trip back to the KHSAA State Championship for the 4th time in as many years. Steven Cummins was named to the first team all-region and Jacob Hamilton

and Tyler Crawford were named to second team all-region. Attending the state meet will also be the only female runner for the Lady Bears, Ashley Anderson. Anderson claimed 11th overall and was named to the second team all-region in what can only be described as a great race by a fierce competitor.

The team would love to have this community show their support by coming out this Saturday, November 9th to the Kentucky Horse Park to cheer on the strongest cross country team in Bracken County history. The race begins at 9:15 a.m.

U.S. Baseball Academy Opens Maysville, KY Location

At U.S. Baseball Academy, young players can enjoy a real Spring Training experience.

U.S. Baseball Academy, which operates a national network of affordable hitting, pitching, catching, fielding and baserunning camps for players in grades 1 through 12, is pleased to announce the addition of Mason County High School to its lineup for the coming winter and spring. Registration is now under way at www.USBBaseballAcademy.com.

U.S. Baseball Academy's Spring Training 2014 is a unique concept that provides young players with advanced hitting, pitching, catching, fielding and baserunning training programs, instruction by the area's top coaches and fantastic facilities. Players who choose multiple skills qualify for discounted session prices.

U.S. Baseball Academy's 2014 Spring Training program will be held at nearly 170 sites across the United States. The session in Maysville runs January 12 - February 16 at Mason County Middle School. Mason County head coach, Tom Posey, will direct the program. Instructors will include a staff of the area's best coaches.

With a player-coach ratio of 6 to 1, each player gets plenty of individual attention in a small-group atmosphere. In addition to unbeatable instruction by the area's best coaches, players get a pre-season tune-up that helps them enter team practice in mid-season form. With numerous age-specific sessions, instruction is specially

tailored for each ability level. Overall, it's the type of intense, professional instruction young players just can't get in a summer league.

Since 1988, U.S. Baseball Academy has run hundreds of camps and clinics for thousands of players nationwide. Each week, hitters rotate through a series of supervised stations, including indoor batting cages, with each drill designed to teach a different aspect of hitting. Players enjoy participating in hitting games and unique stations used by top high school and college programs. The program is designed to improve pitch and strike zone recognition, timing, balance, power, situational hitting, bunting, and other aspects. Pitchers work under the supervision of coaches who can help with all aspects of pitching, from fundamentals and mechanics to more advanced concepts. Drills and repetition will improve a pitcher's speed and control. Our catcher's camp covers all aspects of being behind the plate. Players will get instruction on stance, signs, receiving, framing, blocking, throwing, fielding bunts, tags and the mental aspects of dealing with pitchers.

Registration deadlines are approximately six weeks before each session begins, but last year's camps sold out much earlier. Because of the low player-coach ratio, spots in each session are limited. Complete details and times for each site, as well as registration forms are available online at www.USBBaseballAcademy.com or by phoning toll free 866-622-4487.

The property shall be sold to the highest and best bidder(s) and said purchaser shall be required to pay cash or the sum of ten percent (10%) of the bid price in cash deposit with the balance of the purchase price to be due and payable in cash or certified funds, within thirty (30) days from the date of sale. Letters To The Editor

The Augusta Independent School Class of 2015 participated in a road clean up on Augusta Chatham Road East and Highway 435. Designated workers picked up trash for hours on both sides of the road. Trash that was picked up filled bags and bags of trash.

Workers were shocked by the amount of litter on the road. Members of our community should take pride in our beautiful county. They need to dispose of their trash the proper way. Among the items picked up were: fast food garbage, cups, bottles,

and straws.

As members of this community, we all need to do our part. Our class has learned a lot from doing road clean up and we have been taught a valuable lesson. We learned to appreciate our county and environment. We also learned that disposing of trash is a simple task that many people take for granted. Let's not forget that if caught, littering is against the law and fines can be assessed to violator, so the Class of 2015, urges each member of our community to do their part help keep Bracken County and our environment clean.

Sincerely, The AIS
Class of 2015

Panthers compete in Regional Cross Country Meet; Snapp advances to State Championship

Pictured left to right are, front row: David Reed, and Thomas Mains. Back Row: Jessie Zornes, Camryn Snapp, Nick Zeidler, and Nathan Shrader.

The Region 5 Class A Cross Country Championship was held at Lykins Park in Winchester Kentucky this past Saturday. Coming off a season where the Panthers sent two runners to the state championship, they were looking to once again have runners qualify to represent the team in Lexington.

Augusta ran the course at Lykins Park in their final meet of the season in the Run for the Water Barrel contest. "I think if possible, it's always beneficial to run a course where the big meets are held like region and state," Coach Tim Litteral said. "We didn't initially have any regular season meets scheduled at Clark County, but once we found out the region was being moved there, I want-

ed to get my runners on there. It helps them know what to expect."

The Panthers were led by sophomore Camryn Snapp. Fresh off a 3rd place finish at Lykins Park last week, Snapp placed 4th at the Regional Championship, running an identical time of 18:15. "Camryn started out in fifth place and was finally able to get past the Danville kid," Litteral recounted. From there, he settled into fourth, extending the lead a little at a time, ultimately finishing 11 seconds ahead of the fifth place finisher.

Four other runners took to the course for Augusta. Eighth grader David Reed was next in for the Panthers, finishing 44th out of the 67 runners in the Class A race. He set a personal record by

running 21:58, 50 seconds off his time from the previous week. Nick Zeidler finished 46th, running 22:01, also 50 seconds quicker than his previous meet. Nathan Shrader finished 55th, holding his time steady at 22:45. Thomas Mains came in 60th with a time of 23:24.

For the second straight year, Snapp will represent Augusta in the State Cross Country Championship at the Kentucky Horse Park this Saturday, November 9. The top five runners who are not on a team that qualifies for state have the opportunity to advance, and Snapp was the first at-large bid awarded. His top ten finish also named him to the All-Region Team for Class A Region 5.

Sports in Kentucky

by Bob Watkins

Rupp's Runt Larry Conley hits for the cycle; Louisville just one more patsy before Houston

Larry Conley was a news-maker last week. Pardon the mix of sports cliches, but the popular (my favorite) Rupp's Runt hit for the cycle at a basketball game.

√ Single. Idea to re-unite players from the 1966 NCAA title game, Texas Western-UK at Maryland's old Cole Field House, moved Conley to quip, "You better hurry up."

Been 48 years.

√ Double. Doing commentary at the Kentucky-Transylvania exhibition, Conley opined that UK fans "sit on the hands because they analyze players the same ways we do."

Conley's logic is wonderfully old school and fair for another passing in time. Fans "sat on their hands" because they came with expectation to see precision, fast break elegance, crisp and clever passing (his), and shooting by kids, many of whom were native sons, played for name on the jersey front. Or, they didn't play.

Fans expected basketball as ballet and appreciated ebb and flow more than dunk and show (off), applauded good play by visitors, left game officials alone too, all the way to end-game tradition of students chanting for a bench player be put into the game.

Times and reasons change for sitting on one's hands.

Today, Kentucky fans "sit on their hands" because they come to see what the next NBA lottery picks look like. Analysis, spoken or not, pivots on who next bevy of recruits will be and who might be a sophomore next season.

√ Triple. Conley's "you better hurry up" remark about a 1966 players reunion, brought to mind this idea:

A proposed Texas Western-UK reunion at University of Maryland ignores opportunity. A gathering would be received with pomp and ceremony like no place else in America than El Paso, Texas and Lexington.

A players' reunion on consecutive weekends. In El Paso, to celebrate the school's only NCAA title, then another at Rupp Arena a weekend later with play-

er introductions for all.

Media interest would be blitzkrieg. Delightful possibles: Double-up interviews – David Lattin/Pat Riley, Orsten Artis/Louie Dampier, Neville Shedd/Thad Jaracz, Willie Cager/Larry Conley, Harry Flourney/Clyff Berger.

About waiting until 2016, 50th anniversary? Why?

√ Home Run. In a grand scheme of things the proverbial "bunch of old guys getting together to talk about old times," would light up a room, even a Bluegrass State. The Miners' 28-1 season in 1966 and Kentucky's 27-2 marked a grand year for college basketball.

Conversations among the players, gotten to fans through media would be golden.

For starters, this: "Never mind the movie Glory Road, what was the 1965-66 school year like for you? ... Did you get a degree? Best memories of college days? What career?"

Yes, all things considered, Larry Conley's "ya better hurry up," idea is, well, a home run.

BCS & LOUISVILLE

Latest BCS standings tell us these things.

√ Louisville (7-1) is arguably among the best 10 teams in the country, but having played zero ranked teams is ranked 20th and UofL athletics stands to lose substantial revenue in bowl game earnings. The Cardinals get another patsy this Friday, Connecticut (0-7).

√ Houston (7-1) comes to Papa John's November 16 for game-of-the-year. At stake, how high on the food chain, a bowl invitation, for both.

√ BCS rankings show Kentucky average losses to No. 1 Alabama, No. 12 South Carolina, and No. 20 Louisville was 36 points-plus. Intriguing element to this week's visit by No. 8 Missouri (8-1) is Mark Stoops' team coming off a season best 48-point performance

NEWS & VIEWS

NEWS: Western Kentucky defeated Georgia State in Atlanta last week. First questions for coach Bob Petrino included "what's it like to be back in Atlanta?" (where he coached the

NFL Falcons).

VIEW. Petrino has re-calibrated his tolerance for stupid questions. Five words could've triggered a fire storm. "Who cares about that now?" That it didn't happen is to his credit.

NEWS. Tournament. UCLA, Kentucky, North Carolina and Ohio State will play a round robin, Ohio State coach Thad Matta confirmed last week. His Buckeyes will play one of the other three at a neutral site in 2014, 2015, and 2016.

VIEW. Here's a neutral site idea: Ohio State-UCLA or North Carolina at Rupp Arena; UCLA or Ohio State against Kentucky at the Dean Dome at Chapel Hill.

CALIPARI REAX

E-mails from critics arrived last week reflecting opposite views on Blue Mist Man, John Calipari.

VIEW 1. "I love UK basketball and will watch no matter who is coach. I still bleed blue instead of red, but more for what Kentucky basketball stood for in the past than presently."

Comment: I believe is this view represents a huge majority of Kentucky fans.

VIEW 2. "Coach Cal announced last week he's going to pay tuition for two UK students. Why no comment from you on this good deed."

Comment. That Calipari's tuition-paid idea helps two young people to maximize their educations, is commendable. A better way would have been – Ball coach walks across the street, visits director of UK's admissions, asks department head to make a list of half-dozen promising undergraduates who, may be working two jobs to stay in school. Choose two names out of a hat, fund their educations quietly.

If the recipients want to announce it to the world, then reporters at The Kernel and Lexington Herald-Leader would be delighted to have the story.

PARTING SHOT

College basketball gets underway soon. But first, while you pay top dollar the big dogs must have their way with cream puffs.

In the run-up to season play, anyone else sick already of hearing about what Andrew Wiggins had for breakfast and lunch on his one-and-done way to becoming LeBron James?

And so it goes.

Selling Timber

Nov. 12th at 7 p.m.

This is the final session in the Fall Forestry Webinars and it will be at the Bracken County Extension Office. The presenter for the program will be Dr. Jeff Stringer, Forestry Extension Professor.

Participants will be provided up-to-date information on how to maximize timber revenues while protecting and improving their woodlands. Topics include how to sell your timber to maximize revenue and minimize taxes, how to use consultants and the Kentucky Division of Forestry to your advantage, selecting loggers and other important topics.

For many land owners, now it is more important than ever to consider timber harvest on your land. With invasive insects such as the Emerald Ash Borer and the Walnut Twig Beetle threatening our trees, you should investigate the options for harvesting your market size trees. Planned harvest may yield revenues now that might later end up as dead timber.

Those that attend this class will receive the Education Credit required for the 2013 Phase I programs. Master Loggers that attend will receive 1 hour of continuing education credit toward Master Logger requirements. Registration is not required.

Letters To The Editor

On Sunday, October 13th, my friend, her little brother, and our parents, spent our afternoon picking up trash. There are people who think this debris was left by someone just passing through the county. But, we believe, this mess was left by our own citizens. It is sickening to think that people in our own county are too lazy to throw garbage away properly. It is sad to consider how much money our county has to spend on highway cleanup each year, because of people being too lazy to throw away their trash properly.

We would like to challenge every citizen in this county to make a difference in the effort to make our county a cleaner place to live. If everyone would do their part and not litter, maybe our county could use the money formerly used on trash pick-up for something else. Maybe something to beautify our county!

Sincerely,

Olivia Bell & Kelsey Pulaski

Welcome to the city . . .

Raggedy Ann, aka Bonnie Smith, and Raggedy Andy, aka Laurie Wagner, greeted people as they came into the Brooksville City offices on Thursday, October 31st. This is the first year Bonnie has dressed for Halloween and the staff really enjoyed doing it for the community.

RESERVATION: Grantor hereby reserves utility easement of 50' in width as measured from the centerline of the county road for roadway expansion on the front; and 20' in width as measured from the lot line on the sides and in the back of the lot for utilities. A variance is issued of a 60' set back line from the center of Ky Hwy 1011 on Lot #14, Lot #15, Lot #16, Lot #17 and Lot #18 and no building or structure shall be erected within such set back from center of Ky Hwy 1011. The property shall be sold to the highest and best bidder(s) and said purchaser shall be required to pay cash or the sum of ten percent (10%) of the bid price in cash deposit with the balance of the purchase price to be due and payable in cash or certified funds, within thirty (30) days from the date of sale. If the purchaser(s) fails to comply with the terms of the sale then, in such event, the Master Commissioner shall immediately resell the property upon the same terms and conditions as set forth herein, excepting only any necessary changes in the time and date of sale. Possession of the property herein sold shall be given to the purchaser after payment in full of the purchase price and confirmation of the sale by the Bracken Circuit Court. Pursuant to the Judgment herein, the purchaser shall be required to assume and pay all ad valorem property taxes assessed against the property for 2013 and all subsequent years thereafter. The title interest of the parties to the lawsuit will be conveyed without warranty by the Master Commissioner to the purchaser and the purchaser shall receive a deed to property upon payment of the purchase price in full (and costs of sale, if applicable) and after confirmation of the sale by Bracken Circuit Court, subject to any equity of redemption if the property does not sell for two-thirds of its appraised value.

Letters To The Editor

On October 12, the Bracken County Lady Bears Fastpitch players and parents, and supporters spent their morning picking up garbage on Highway 875, Shofstahl Road, and part of Wagel Road for a total of 7 miles. They picked up over twenty bags of garbage. Consider, if the average trash bag could hold 40 pounds before breaking, imagine how much the oversized bags for highway cleanup could hold; now, multiply that by twenty. Isn't that terrible? It is ter-

rible to consider how lazy some people would have to be to simply throw their fast food items, plastic, cigarette boxes, and other trash out their car windows. While our club was glad to earn money, it's pretty sad to think about how much money could be saved if money didn't have to be spent picking up after people who are old enough to know better.

With this in mind, the BCHS Lady Bears Fast pitch team would like to challenge every citizen in this county to make a difference in the effort to make our county a cleaner place to live. We challenge each reader to take

a trash bag and spend a few minutes picking up trash from your own house to your neighbor's home. Perhaps, if we all join together, the laziest citizens of our county will get the message and dispose of their trash properly. It is ridiculous to think that our group collected twenty bags of garbage in just a few miles of highway. Perhaps, our challenge to you will enable our county to use money formerly used on trash pick-up for something else, like planting trees or other plants to beautify our county.
